28.9.21

### Dear Parents

Thank you for your continued help and support with all matters relating to the ongoing pandemic. There have been a number of changes nationally over the last couple of months, but the guidance on if your child develops symptoms of Covid 19 remains as follows:

**If your child develops symptoms of COVID-19, they must isolate and you should arrange a PCR test for your child** via <https://www.gov.uk/guidance/coronavirus-covid-19-getting-tested> or by calling 119. **If your child is displaying Covid symptoms it is a PCR Test and not a rapid lateral flow test that needs to be done.**

If the test result is positive, your child will be required to self-isolate for a period of 10 days from the day that their symptoms started. Please inform us if your child has a positive test result.

If your child's test result is negative, they can continue with their normal activities if they are well enough to do so.

Please visit the link to Public Health England's guidance for households with possible Covid-19 infections:

<https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

**Please keep us informed of any symptoms and PCR tests booked and their results.**

### Symptoms of COVID-19

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or;
- high temperature and/or;
- a loss of, or change in, normal sense of taste or smell (anosmia).

However, people frequently present with a wider range of symptoms. If you or your child feel newly unwell with Covid-19 symptoms, then please access a PCR test. For many people, coronavirus (COVID-19) will be a mild illness.

Kind regards

Mr Wright
