

Guidance on Accessing Emails from Teachers

When your child's teacher has sent an email, it will appear as an alert at the top of the page.

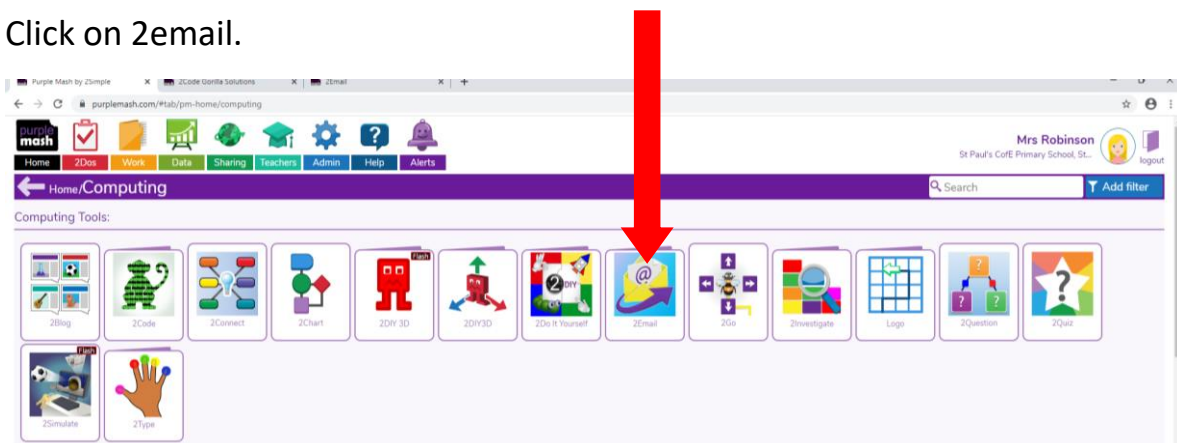

Should you wish to access the email system (2email) at another time, follow these instructions:

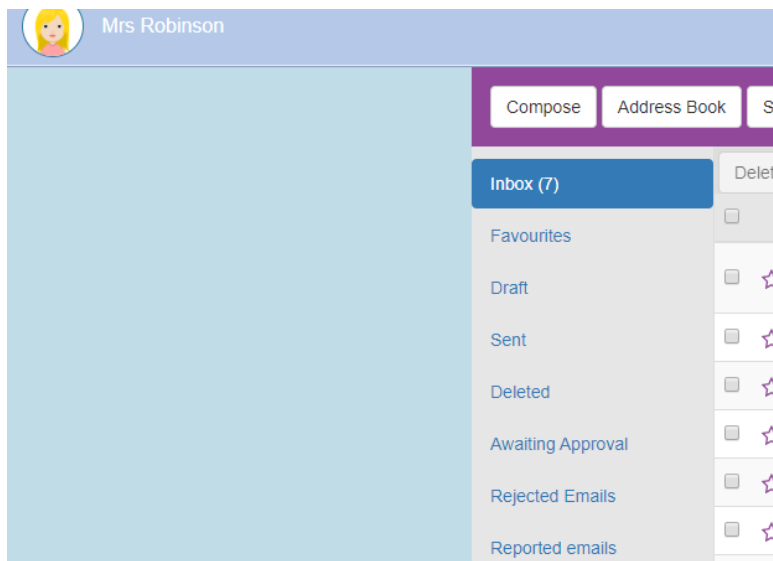

Click on 'Computing' on the home page.

Click on 2email.

From here, you can see your emails, reply or compose a new email to the teacher.

You can attach photographs of your child's writing task here or any other work that you'd like to share.

Stay safe and well. Happy emailing!
